NASA SEWP VI Ordering Guide

SEWP VI Overview

The NASA SEWP (Solutions for Enterprise-Wide Procurement) Contract is a GWAC (Government-Wide Acquisition Contract) managed and administered by NASA under the authority of OMB (Office of Management & Budget). Now in its 6th iteration, the SEWP VI Contract provides the latest in both commodity and advanced IT / Information Technology products and services for ALL Federal Agencies and their approved contractors. SEWP VI provides you Best-in-Class pre-competed Prime Contract Holders with an excellent record of responsiveness, high customer satisfaction, and a low contract administration fee.

FAIR OPPORTUNITY WHEN USING SEWP CONTRACTS – SEWP VI is comprised of IDIQ (Indefinite Delivery – Indefinite Quantity) contracts, both manufacturers and resellers of IT Products / Services. Since all awards were multi-award contracts, Fair Opportunity (per FAR 16.505(b)) must be given to all contractors in one or more of these groups or set-asides.

How to Obtain a Quote

If your requirements are within the scope of SEWP, you can send out a Request for Quote or a Request for Information (RFI) for the IT products/services you are looking to obtain. The Contract Holders will add the items to the contract based on your request and send you back a quote. You can then order the items based on the quote. If you are uncertain about the scope, send your requirements to help@sewp.nasa.gov for review.

The SEWP on-line Quote Request Tool (QRT), Market Research Tool and simplified RFI tool can be used to request availability and pricing information from the Contract Holders. When using the QRT to obtain quotes, the Contract Holder must also send in a Verification File along with their quote. This Verification File is checked against the SEWP database automatically by the SEWP Program Office during the quote submission process. The verification summary is available under the 'CLIN List' column of the on-line Quotes tab. The customer need only check that the items in the 'Pass' file under the 'CLIN List' column match the items and pricing on the quote. If a quote is obtained from outside the QRT, the verification process will not occur until the order is processed by the SEWP Program office.
